Pallet/Material Selection Release

It is the policy of Tri-State Stone & Building Supply, Inc. (hereafter referred to as TSS) that customers are to select the pallets or material they wish to have delivered by tagging pallets or visually inspecting the bulk material we have available. I, the undersigned and hereby waiving TSS, its employees or agent(s) of any responsibility stemming from their selection of my pallets or material. I understand that stone is a product of nature, and therefore has variations in color, texture, streaking, spotting, clefting, etc. I further understand that I was given the opportunity to select my material yet chose not to. Therefore, if dissatisfied, TSS has no responsibility to accept a return, refund, or exchange. Further, TSS will not return to my property or job site to remove unwanted material.
